WORKING SCIENTIFICALLY IN PRIMARY SCIENCE

**Do you want to explore how skills within science
can be developed in your class and school?**

Get prepared for next year - book your place on this fantastic face-to face CPD session today!

- This course will provide an overview of what working scientifically means, considering the 5 enquiry types and skills within science.
- Develop your confidence in identifying enquiry types.
- Identify which skills are used in practical science and how they can be developed within your class and school.
- Explore ways of ensuring that practical science provides coverage and progression for the children that you teach.

Facilitator: Jane Banham, Independent Primary Science Consultant and Senior Professional Development Leader for STEM Learning.

Date and time: 09 July 2024 09:30-15:30

Venue: Newby & Scalby Primary School, Scarborough

Audience: Primary Science Leads and Teachers

Cost: Prices start from £200 for maintained schools. **Book by Friday 28th June to receive a 50% discount on this price!**
